

## SIGNATURE CONFERENCE 2021

Taxes and Investments in the Post-Pandemic World

### Signature Conference 2021 Taxes and Investments in the Post-Pandemic World

Friday, 3 September 2021 | 10.00am - 4.30pm

As countries emerge from the CoVID-19 pandemic, the fiscal costs incurred in supporting the economy during and post-pandemic will weigh on governments.

Investments are needed to create jobs and provide revenues. The evolving international tax rules for a more digitalised world economy are also culminating in some form of the new international tax order. Companies and governments will have to manoeuvre through and emerge from these challenges.

The conference offers keynotes and panel discussion by policy makers, tax and business professionals and academia to share insights on the emerging international tax rules and policies and discuss the fiscal and tax challenges so as to make sense of the imperatives in preparation for the post-pandemic fiscal and international tax order in a more digitalised economy.
